Mary,

I have attached the memo we sent yesterday via certified mail that accompanied our NPDES permit renewal.

My attachment here is unsigned because I can't get to a scanner and I didn't want to sign this electronic pdf with a digital signature only to have two signed documents in the system.

I think you will find the renewal application very straight forward, but I want to alert you to our request for a slightly higher aluminum limit at outfall 006.

We look forward to working with you on this renewal.

Thanks.

Tom
